LEBANESE INTERNATIONAL UNIVERSITY

Major Title: Bachelor of Interior Design
Major Code: BIDES
Level: underGraduate
Number Of Credits: 99
Date: 24-09-2026

Bachelor of Interior Design (BIDES)

Program Objectives

Objective	Description
PO-1	Define both theoretical and practical methodologies in design production to build a comprehensive approach to creative work.
PO-2	Comprehend the foundational principles of interior design and apply practical tools to navigate challenges and innovate within the field.
PO-3	Apply various operational platforms and dynamic environments while enhancing personal communication skills for effective collaboration
PO-4	Utilize design tools, adhere to industry standards, and conduct thorough materials research to create sustainable and high-quality interior spaces.
PO-5	Apply ethical design practices by fostering inclusivity, embracing diversity, and contributing positively to society.
PO-6	Analyze research findings with a critical perspective to extract valuable insights that inform design decisions.
PO-7	Plan and execute ideas with refined technical expertise and strategic thinking to thrive in professional settings.
PO-8	Design with purpose by developing strong conceptual foundations and applying ethical and socially responsible problem-solving methods.

Program Learning Outcomes

Outcome	Description
PLO-1	Identify the relationship of Interior Design to other adjacent fields ofspecialization like Architecture, Engineering and Construction
PLO-2	Comprehend the Interior design lexicon and terminologies used to communicate with other designers, engineers or contractor on the construction site
PLO-3	Apply the elements and principles of design to produce functional interior spaces using compositions of valid materials, shapes and elements
PLO-4	Apply methodological technics of design and design-thinking strategies to design interior spaces that are functional, meaningful and safe for the end user
PLO-5	Sketch interior spaces that communicate with a specific client or target group
PLO-6	Practice and be involved in the sociopolitical, cultural and ethical issues

Program Learning Outcomes	
Outcome	**Description**
PLO-7	Analyze information through research, and be able to classify and use this information in specific design jobs
PLO-8	Develop interior spaces designed from specified themes and valid concepts in collaboration with the end user
PLO-9	Develop conceptual thinking methodologies and prove the ability to synthesize and construct successful solutions.
PLO-10	Design an academic portfolio and a CV to be used when applyingfor future job vacancies.
